FOREWORD

The 2nd International Conference on Renewable Energy Potential for Sustainable Initiatives (REPSI 2020) was held at Bharati Vidyapeeth’s College of Engineering, New Delhi, India during 6-7 February, 2020. The conference served as a platform for the exchange of ideas among distinguished brains from all over the world. Our aim at REPSI 2020 was to equip the participants with the skills and knowledge essential for inculcating technical know-how, while guiding and monitoring their progress towards an enriching career in the field of Renewable Energy Systems.

The conference was inaugurated by eminent personalities such as Mr. Mehtab Singh, Ex CEE Northern Railways and (presently) Chairman of IET Delhi Local Network, and Mr. Manish Tiwari, General Manager in Smart Grid Division of Power Grid Corporation of India. A special plenary session was organized where Prof. Martin J. Haigh, Professor in Oxford Brookes University, UK expressed his ideas on the scope and importance of Renewable Energy Systems.

Another special plenary session was also organized in which professors from foreign universities expressed their ideas on the scope and importance of Renewable Energy Systems.

In all, 120 research papers were received from different parts of the country and abroad. Each submission was double blind reviewed by at least two anonymous reviewers. Out of the papers received, a total of 15 papers were finally accepted for publication in this Special Issue of JSMS.
